Program Overview & Career Trajectory

Why Cloud & DevOps? The Future is in the Cloud

- **High Demand:** DevOps Engineers are among the highest paid and most in-demand roles globally.
- **Cloud Adoption & Automation:** More companies are migrating to the cloud for scalability, reliability, and cost efficiency. Automation improves delivery speed, reduces system errors, and maximizes productivity.

Your Career Roadmap (Target Job Tracks)

CLOUD SUPPORT ENGINEER

Monitor systems, resolve incidents, and manage cloud infrastructure stability.

DEVOPS ENGINEER & ADMIN

Build end-to-end continuous integration pipelines, optimize systems, and containerize runtimes.

CLOUD ARCHITECT

Establish cloud design parameters, structural data models, configurations, and organizational infrastructure policies.

Technical Syllabus Modules

MODULES	SYLLABUS	TIME
01. Linux Administration	Linux Architecture & Systems • Permissions, Users & Groups • Process Handling & Daemons	Week 1
02. Networking Fundamentals	OSI Architecture & TCP/IP • Subnets & Routing Tables • Firewalls & Ports Management	Week 2
03. Git & GitHub	Branching, Rebasing & Merging • Stash, Cherry-Pick & Submodules • Git Workflows in Teams	Week 3
04. Docker & Containerization	Containerization Architecture • Dockerfile Writing Optimization • Multi-Container Docker Compose	Week 4
05. Kubernetes Platform Engineering	Core & Advanced Operations: Pods, Deployments, Services, Config Maps, Secrets, Ingress Controllers, StatefulSets, DaemonSets & RBAC • Cluster Autoscaling, Node Upgrades & Capacity Provisioning Production Runtime Tasks: Triage PodCrashLoopBackOff & ImagePullBackOff Errors • Investigating Infrastructure Memory Leak and Engine Failures	Weeks 5 - 6
06. AWS Cloud Services	IAM Policies, Core VPC Structural Designs • EC2 Compute Instances, Auto Scaling, Elastic Load Balancers	Week 7
07. Terraform (IaC)	Declarative Provisioning, State Backends & Locks • Variable Injection & Multi-Environment Isolation Workspaces	Week 8
08. Advanced CI/CD & GitOps	GitHub Actions Runners, Artifact Pipelines, Matrix Jobing • Argo CD Continuous GitOps Deployments & Rollbacks	Week 9

MODULES	SYLLABUS	TIME
09. Enterprise Monitoring Stack	Metrics Ingestion & Aggregations via Prometheus • Dashboard Building & Alert Routing in Grafana & Loki	Week 10
Capstones & Interview Prep	Real-World Production Deployment Pipelines, Infrastructure Automation & Placement Strategy	Week 11

Real-Time Projects

Project 1 – Containerized Application Deployment

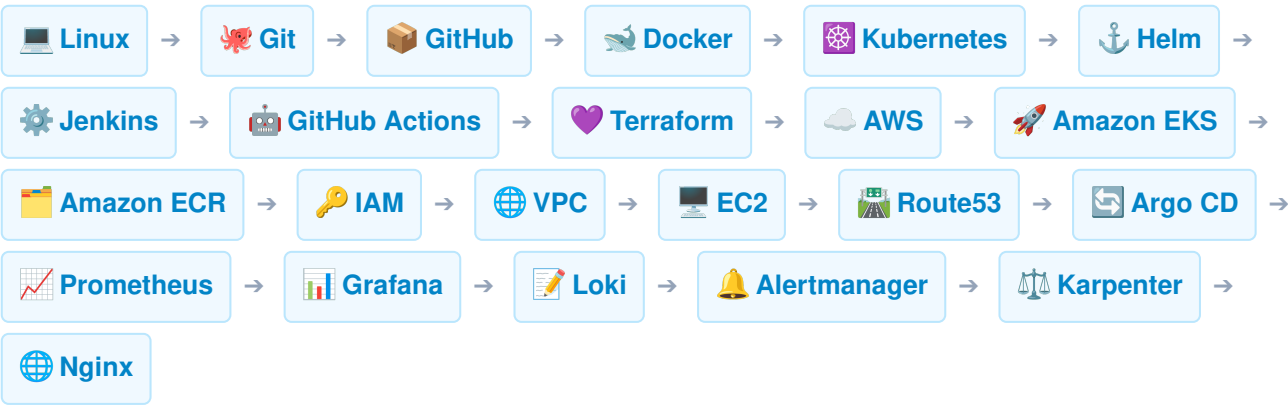

GitHub → Jenkins → Docker → AWS ECR → AWS EC2

Project 2 – Production-Grade Cloud Native Platform

GitHub → Jenkins/GitHub Actions → Docker → Amazon ECR → Terraform → Amazon EKS → Argo CD → Helm → Karpenter → Prometheus → Grafana → Loki → Alertmanager

Tools You'll Master ★★★★★

ENTERPRISE TOOLS COVERED

The P Square Advantage ★★ ★

- ✓ Practical Hands-on Training
- ✓ Real-World Production Projects
- ✓ Dedicated Cloud Lab (24x7 Access)
- ✓ 100% Job-Focused Curriculum
- ✓ Small Batch. Bigger Success. (Maximum 10 Students)
- ✓ One-to-One Mentor Support
- ✓ Resume Building & LinkedIn Optimization
- ✓ Mock Interviews with Industry Scenarios
- ✓ Production-Level DevOps & Cloud Environment
- ✓ Interview-Oriented Assignments & Assessments
- ✓ Lifetime Access to Course Updates
- ✓ Post-Training Career Support

Student Success Promise 👍

OUR COMMITMENT

→ Learn by Doing

→ Build Production-Level Projects

→ Gain Industry-Ready Skills

→ Attend Mock Interviews

→ Receive Career Guidance

Placement Assistance

✓ Resume Building

✓ LinkedIn Profile Optimization

✓ GitHub Portfolio

✓ Mock Interviews

✓ HR Interview Preparation

✓ Technical Interview Preparation

✓ Company Referral Guidance

Career Success Roadmap ★★ ★★ ★★

Compensation Metrics (Indian Market Outlook)

TARGET JOB PROFILE	EXPERIENCE LEVEL	SALARY RANGE (PER ANNUM)
Cloud Support Engineer	0-1 Year	₹3.5 - 6 LPA
Linux System Administrator	0-2 Years	₹2.5 - 6 LPA
Junior DevOps Engineer	0-2 Years	₹4 - 8 LPA
Associate DevOps Engineer	1-3 Years	₹6 - 12 LPA
DevOps Engineer	2-5 Years	₹8 - 18 LPA
Cloud Engineer	3-6 Years	₹12 - 25 LPA
Site Reliability Engineer (SRE)	3-6 Years	₹12 - 25 LPA
Senior DevOps Engineer	5-8 Years	₹15 - 35 LPA
Cloud Architect	8+ Years	₹30 - 60+ LPA

(Train Like an Engineer. **Work Like a Professional.**)

Trainer Profile: Y Prudvi Raju

SENIOR CLOUD DEVOPS ENGINEER

- ✓ AWS Cloud & Amazon EKS
- ✓ Terraform Infrastructure Automation
- ✓ GitHub Actions & Argo CD (GitOps)
- ✓ Container Orchestration (Docker & K8s)
- ✓ Production Deployment Pipelines
- ✓ Enterprise Monitoring & Alerting Stacks

Let's Build Your Future Together!
